FEDERAL COMMUNICATIONS COMMISSION
 Washington, D.C. 20554

RECEIVED

JUN - 9 2004

In the Matter ofFEDERAL COMMUNICATIONS COMMISSION
OFFICE OF THE SECRETARY

Amendment of Section 73.202(b))	MB Docket No. 04-138
Table of Allotments)	RM-10953
FM Broadcast Stations)	RM-10954
St. Marys, West Virginia)	

To: The Secretary

COMMENTS

West Virginia Educational Broadcasting Authority (“WVEBA”), by its attorneys and pursuant to Section 1.420 of the Commission’s rules, hereby files its comments in the above docketed rulemaking proceeding.¹ The rulemaking proposes to amend Section 73.202(b) of the Commission’s rules by reserving the allocation of Channel 287A to St. Marys, West Virginia, for noncommercial, educational use.²

WVEBA supports adoption of this rulemaking proposal and attaches an engineering technical statement in support of the reservation. WVEBA also reaffirms its interest to apply for a new noncommercial station on Channel 287, if allotted. If authorized to do so, WVEBA will promptly build this station on the requested channel.

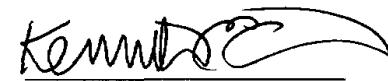

¹ *Amendment of Section 73.202(b), Table of Allocations, FM Broadcast Stations*, MB Docket No. 04-127 et al., Notice of Proposed Rulemaking, 19 FCC Rcd 6953 (2004).

² Pursuant to the *Public Notice*, 18 FCC Rcd 19600 (2003), announcing the FCC’s intent to accept reservation showings for certain vacant FM allotments until November 21, 2003, WVEBA filed a Petition for Rulemaking requesting that the Commission modify the FM Table of Allotments to reserve the allocation of Channel 287A to St. Marys, West Virginia, for noncommercial educational use. A Petition for Rulemaking with respect to St. Marys also was filed by Fine Arts Radio, Inc.

Respectfully submitted,

**WEST VIRGINIA EDUCATIONAL
BROADCASTING AUTHORITY**

**ENGINEERING TECHNICAL STATEMENT PREPARED BY RYAN WILHOUR OF
THE FIRM KESSLER AND GEHMAN ASSOCIATES, INC.,
TELECOMMUNICATIONS CONSULTING ENGINEERS, IN SUPPORT OF
COMMENTS FILED IN RESPONSE TO NOTICE OF PROPOSED RULEMAKING
IN MB DOCKET NO. 04-138 TO RESERVE THE VACANT COMMERCIAL FM
CHANNEL ALLOTMENT 287A ST. MARY'S, WV
PREPARED ON BEHALF OF WEST VIRGINIA EDUCATIONAL BROADCASTING
AUTHORITY**

The firm Kessler and Gehman Associates, Inc. has been retained by West Virginia Educational Broadcasting Authority ("WVEBA") to prepare this technical statement to support WVEBA's comments in response to the Notice of Proposed Rulemaking in MB Docket No. 04-138, 19 FCC Rcd 6953 (2004), to reserve the vacant commercial FM Channel 287A St. Mary's, WV allotment for non-commercial use.

Discussion

The initial Engineering Technical Statement in WVEBA's November 21, 2003, Petition for Rulemaking ("PFRM") included a non-commercial channel preclusion study based on the St. Mary's allotted coordinates: North Latitude 39° 18' 3", West Longitude 81° 15' 19". The instant technical statement supplements that showing with a non-commercial channel preclusion study based on the city center census coordinates for St. Mary's, WV: North Latitude 39° 23' 29", West Longitude 81° 12' 18".

PAGE 2

Technical Preclusion of NCE Service

Pursuant to paragraph 35¹, of the Second Report and Order in MM Docket No. 95-31 released on April 10, 2003, the following technical preclusion studies have been prepared to provide a reliable and efficient proxy of technical preclusion.

Exhibit 1 is the result of a preclusion study² conducted at the census coordinates for St. Mary's, WV using minimized facilities for its station class³. The exhibit demonstrates contour overlap preclusion for all NCE-FM channels.

Exhibit 2 is the result of a preclusion study conducted 27 km at 0 degrees from the census coordinates for St. Mary's, WV using the authorized maximum facilities for a Class A facility. The exhibit demonstrates contour overlap preclusion for all NCE-FM channels.

Exhibit 3 is the result of a preclusion study conducted 27 km at 90 degrees from the census coordinates for St. Mary's, WV using the authorized maximum facilities for a Class A facility. The exhibit demonstrates preclusion for all NCE-FM channels.

¹ *Reexamination of the Comparative Standard for Noncommercial Educational Applicants*, Second Report and Order, 18 FCC Rcd 6691, 6705 (2003) ("Second Report and Order"). The Second Report and Order states: "[A] showing will be based on a circle, centered in the proposed community of license and drawn with a radius one kilometer less than the distance to the predicted 60 dBu strength signal of a maximum same-class facility. The reservation showing must establish that no rule-compliant facility can be authorized at maximum antenna height above average terrain ("HAAT") and with maximum effective radiated power ("ERP") on any reserved band channel at four equally-spaced locations on the circle, beginning with 0 (zero) degrees. In addition, the reservation showing must establish that no same-class rule-compliant facility can be authorized at minimum antenna HAAT and with minimum ERP on any reserved band channel at the city center coordinates for the community of license."

² pursuant to section 73.509 and 73.507

³ pursuant to section 73.211(a)

KESSLER AND GEHMAN ASSOCIATES, INC.

St. Mary's, WV

PAGE 3

Exhibit 4 is the result of a preclusion study conducted 27 km at 180 degrees from the census coordinates for St. Mary's, WV using the authorized maximum facilities for a Class A facility. The exhibit demonstrates contour overlap preclusion for all NCE-FM channels.

Exhibit 5 is the result of a preclusion study conducted 27 km at 270 degrees from the census coordinates for St. Mary's, WV using the authorized maximum facilities for a Class A facility. The exhibit demonstrates contour overlap preclusion for all NCE-FM channels.

Conclusion

It is herein demonstrated that the proposed St. Mary's, WV facility would be considered "technically precluded" based on the fact that no rule-compliant facility could be authorized on any reserved band channel at or in near proximity of the St. Mary's WV census designated coordinates. Hence, the need for a NCE-FM service in the proposed service area has been further demonstrated by the instant analysis pursuant to the Second Report and Order released on April 10, 2003 in the matter of Reexamination of Comparative Standard for Noncommercial Educational Applicants.

Certification

I, Ryan Wilhour, declare and state that I am a graduate electrical engineer with a Bachelor of Science in Electrical Engineering and my qualifications are a matter of record with the Federal Communication Commission, and that I am an engineer in the firm of Kessler and Gehman Associates, Inc., and that firm has been retained by to prepare the foregoing technical statement.

KESSLER AND GEHMAN ASSOCIATES, INC.

St. Mary's, WV

PAGE 4

The foregoing technical statement and aforementioned engineering work are true and correct to the best of my knowledge. Executed on June 8, 2004.
